**Subject:** WHA CheckPoint: Preview Report Available Perinatal

Good Morning,

The CheckPoint Preview Report has been updated to show your hospital's data for the four quarters ending **2023Q3** for the following measures.

This new data will be released to the **public reports on 1/24/2024**.

- Cesarean Section (PC-02)
- Early Elective Deliveries (PC-01)
- Exclusive Breast Milk Feeding (PC-05)
- Newborn Screening Transit Time (Three Day)
- Term Newborn Complications (PC-06)

Select Hospital Login, click Preview Reports on the central panel, then expand the Birth measure family in the report.

A "NDA" (No Data Available) report code indicates that a hospital does not have the ability to report a particular measure. Please let me know if your report shows NDA, but your hospital can report the affected measure, or if it shows DNR when NDA would be more appropriate.

A "DNR" (Did Not Report) or "IP" (In Progress) code indicates that one or more quarters' data are missing. If your preview report shows missing or inaccurate data, you can enter or revise it at any time. If you don't see the correct quarter you need please reach out to me via email.

The due date for 2024Q4 data for **hospitals performing manual data entry, and for PeriData.Net** subscribers to enter their data from a different vendor is 4/3/2024.

Let me know if you have any questions or concerns,

1/23/2024-Quality Measures Team will be meeting for final directions on hospital eCQM submissions and how that work with CheckPoint. Thank you for your patience.

I have included tentative calendar for CheckPoint 2024 dates.

**Amber Hollerich, HITCM-PP**
