**Subject:** WHA CheckPoint: Preview Report Available Perinatal

Good Morning,

CheckPoint Preview Report has been updated to show your hospital's data for the four quarters ending **2023Q4** for the following measures.

This new data will be released to the **public reports on 4/24/2024.**

- Cesarean Section (PC-02)
- Early Elective Deliveries (PC-01)
- Exclusive Breast Milk Feeding (PC-05)
- Newborn Screening Transit Time (Three Day)
- Term Newborn Complications (PC-06)

Select Hospital Login, click Preview Reports on the central panel, then expand the Birth measure family in the report.

A "NDA" (No Data Available) report code indicates that a hospital does not have the ability to report a particular measure. Please let me know if your report shows NDA, but your hospital can report the affected measure, or if it shows DNR when NDA would be more appropriate.

A "DNR" (Did Not Report) or "IP" (In Progress) code indicates that one or more quarters' data are missing. If your preview report shows missing or inaccurate data, you can enter or revise it. If you do not see the correct quarter you need please reach out to me via email.

Let me know if you have any questions or concerns,

**Amber Hollerich, HITCM-PP**
