Subject: CheckPoint Alert - Perinatal Data Entry Reminder for 2023Q1 by 07/03/2023

Happy Monday,

This is a reminder for hospitals performing birth services to enter perinatal measure data into CheckPoint for 2023Q1 **by 07/03/2023**. This will ensure that your hospital is included in the state average and state benchmark calculations.

 PeriData.Net (PDN) subscribers will need to enter just their PC-06 (Term Newborn Complications) results from an approved vendor. WHA will load the other measures from the file provided by PDN.

PeriData.Net subscribers may use data from a different, approved measure vendor if they wish. The PDN data for this quarter will be disregarded if alternative data are entered by the deadline.

- Hospitals using a different, approved measure vendor should enter their data for all four measures (PC-01, 02, 05 and 06).
- For your calendar, the 2023Q2 data will be due by 10/2/2023
- Data entry instructions are included below, and please let me know if you have any questions or
  encounter difficulties. Users can confirm that data entries were saved by returning to the Data
  Entry form and re-select the appropriate Hospital, Year-Quarter and measure(s). If they were
  successfully saved the data will be visible. Results will not appear in the Preview Report until
  WHA completes the data load and sends an Alert email, approximately one week after the data
  entry deadline.

Thanks, **Amber Hollerich, HITCM-PP** 

Health Care Data Analyst 5510 Research Park Drive, Ste. 200 Fitchburg, WI 53711

**1.** Log-in to CheckPoint <a href="https://checkpoint.wha.org/">https://checkpoint.wha.org/</a> and click Hospital Login on the orange menu bar.

2. Click on Data Entry:

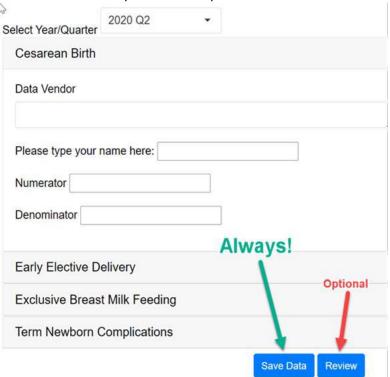

3. Pick the hospital and Year/Quarter (you can revise past periods' data this way too):

**4. Enter the data for each measure** by clicking the gray section header to expand it (the Newborn Screening Transit Time data are loaded by WHA), selecting your measure data vendor from the list, typing your name as a signature, and entering the numerator and denominator. Click the

**Save Data>** button when you are ready. The <Review> button will take you directly to the preview report if you wish to see your new data presented with the prior quarters. NOTE: WHA will advance the preview "window" of four quarters ONLY after the previous one has been released to the public. Your data will not always be viewable in the preview report, but you can always return to the data entry form and re-select the hospital and time period.

5. Click Hospital Login on the orange menu bar to return to the user options where you can press the <Sign Out> button if you are all done. The blue Log Out option in the top right corner will also sign you out of CheckPoint.
