Subject: CheckPoint Alert - Perinatal Data Entry Reminder for 2021Q2 by 10/1/2021

This is a reminder for hospitals performing birth services to enter perinatal measure data into CheckPoint for **2021Q2** by **10/1/2021**. This will ensure that your hospital is included in the state average and state benchmark calculations. Please use Microsoft Edge as your web browser during data entry so that your data will be saved.

- PeriData.Net (PDN) subscribers only need to enter their PC-06 (Term Newborn Complications) results from an approved vendor. WHA will load the other measures from the file provided by PDN.
- Hospitals using a different, approved measure vendor should enter their data for all four measures (PC-01, 02, 05 and 06).

The period during which hospitals had the option to suspend reporting due to COVID has ended. "DNR" will be reported on CheckPoint if no measure data are submitted for 2020Q3. Hospitals that chose to suspend reporting for 2020Q1 and Q2 and resume for Q3 will be reported as "IP" (In Progress). This indicates that they are accumulating the four consecutive quarters of data necessary for WHA to report stars or rates for them.

For your calendar, the 2021Q3 data will be due by 1/4/2022.

Data entry instructions are included below, and please let me know if you have any questions or encounter difficulties. If you wish to confirm that your data entries were saved you can return to the Data Entry form and re-select the appropriate Hospital, Year-Quarter and measure(s). If the data are visible then they were successfully saved to the database.

Data Entry Instructions

1. Log-in to CheckPoint <https://checkpoint.wha.org/> and click **Hospital Login** on the orange menu bar.

2. Click on Data Entry:

Hospital Login

3. Pick the hospital and Year/Quarter (you can revise past periods' data this way too):

Hospital Report Compare Hospitals

Perinatal Data Entry

Select a Hospital and Year/Quarter to insert or modify the hospital measu

Select Year/Quarter

- Select
- 2019 Q1
- 2019 Q2
- 2019 Q3
- 2019 Q4
- 2020 Q1
- 2020 Q2

4. Enter the data for each measure by clicking the gray section header to expand it (the Newborn Screening Transit Time data are loaded by WHA), selecting your measure data vendor from the list, typing your name as a signature, and entering the numerator and denominator. Click the **<Save Data>** button when you are ready. The **<Review>** button will take you directly to the preview report if you wish to see your new data presented with the prior quarters. NOTE: WHA will advance the preview “window” of four quarters ONLY after the previous one has been released to the public. Your data will not always be viewable in the preview report, but you *can* always return to the data entry form and re-select the hospital and time period.

Select Year/Quarter 2020 Q2

Cesarean Birth
