**Program Mission:** To provide support and collaboration to Wisconsin hospitals to implement stroke systems of care (SSoC) that meet standards for achieving Acute Stroke Ready Hospital (ASRH) criteria for improved stroke patient outcomes.

#### Learning Objectives

At the end of this webinar, Stroke Teams will be able to:

- Investigate critical components of stroke care in the ED
- Examine information the receiving hospital needs to know and why
- Formulate strategies to communicate with needed consultants (i.e. neurologist), and troubleshoot barriers to accessing resources that are not readily available
