

The Evolving Role of AI – For Healthcare Leaders & Healthcare: Webinar – Register Today

Join WHA for a complimentary webinar on Oct. 15 from 9-10 a.m. on *The Evolving Role of AI – For Healthcare Leaders & Healthcare*.

In this session, Jennifer M. Olson, MBA (owner/senior partner of BlueInnovo Advisors and WHA Health Care Leadership Academy Instructor) along with Cody Baldwin (adjunct faculty, UW CPED) will take a high-level look at the evolving nature of artificial intelligence (AI) in health care – from the basics of where it's happening and what the common definitions are, to examples of how to get your hospital crawling, walking and running with AI. As leaders, this is a core skill that everyone will need in their toolkit to effectively engage with five generations of talent within the industry. You will leave with tangible tips that will help you immediately navigate this ever-burgeoning field.
