Peer Support in Wisconsin Hospitals – We Want Your Input!

WHA, in partnership with PROTEA and Wisconsin Voices for Recovery (WVR), is working to expand access to substance use treatment through the Wisconsin Rural Health and Substance Use Clinical Support Program by offering training, education and support.

To better understand the use of Peer Support services, we invite you to complete a short, anonymous survey (5–7 minutes).

Hospital Peer Support Utilization

Target Audience: Emergency department staff, including administrators, clinicians (MD/DO, PA/NP, RNs), pharmacists, psychologists, behavioral health providers and peer support specialists.

Your feedback will help us identify gaps and improve support for peer recovery services in Wisconsin hospitals.

Funding is provided by the UW School of Medicine and Public Health from the Wisconsin Partnership Program (WPP).
