

Inaugural Quality Improvement Poster Showcase

Wisconsin hospitals showcased their quality improvement successes April 18 at the Capitol Rotunda in a Pre-Advocacy Day Poster Showcase.

Twenty-three posters were featured, representing 50 Wisconsin hospitals and health systems, highlighting their hospitals' improvement projects. Topics were wide ranging and included Age-Friendly Health Systems, reducing opioid prescriptions, focus on reducing health disparities, and reducing readmissions. Presenters, representing hospital staff responsible for improving patient care, patient safety and access and creating value, had an opportunity to interact with their legislators and other hospital staff leaders.
