## Registration is Open for the 2025 Wisconsin Rural Health Conference

Registration for the 2025 Wisconsin Rural Health Conference is now open. The conference will be held June 4-6 in Wisconsin Dells.

This annual statewide forum is designed to highlight public policy and operations issues affecting rural health care, identify how the delivery of and access to rural health care are changing and identify ways in which data, technology and people processes are improving care and access for rural populations.

Comprised of nationally known speakers and local subject matter experts, the agenda is full, engaging and relevant. [View the agenda here.](#)

Over the next several months, different aspects of the agenda will be highlighted. This week, we focus on the June 5 keynote speaker. With 47 years of experience as a strategist, executive and negotiator, Nate Kaufman is considered one of the nation's health care industry experts. He is a strategic advisor to health care executives, boards, physician groups and other health care companies. He is known for his practical advice focusing on succeeding in the new post-COVID value-based risk environment. Join us as Nate explores possible scenarios for the future of health care delivery.
