ABOUT CAREER PATHWAYS

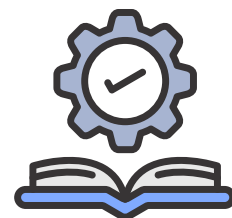

The Wisconsin Career Pathways approach is a statewide effort to deliver high-quality career pathways in high schools that reflect the needs and vision of employers, education, and economic and workforce development partners from across the state and within each region.

If you have story ideas for the next issue, please send them to Beth Kaminski (State Director for Career Pathways) by March 31st

In The News...Read All About It!

Trying Out the Trades

- Over 1,200 middle and high school students from Waukesha County and beyond had exposure to career opportunities in the construction and manufacturing industries. 

Energy Career Fair

- Wisconsin Public Service (WPS) hosted about 200 high school students from northeast and north central Wisconsin for an energy career fair in Green Bay where students participated in fun and engaging ways to learn about the jobs that help power the communities they live in. 

Operating Engineers Events

- This Pathways Program Event aimed to foster the next generation of skilled professionals while addressing the growing workforce demands in construction and related industries. 
- A successful Fall Externship Event was held for 1,200 students, parents/guardians, and educators!  Check out these great photos from the event!
